

Gregory Stoutenburg

Survey Evaluation Results

In the attachment you will find the evaluation results of the survey Introduction to Ethics.

Questionnaire STFE_CF_KT:

The overall indicator is listed first. It consists of the following scales:

- Course Feedback Survey

The overall indicator is followed by the individual average values of the scales mentioned above. In the second part of the analysis the average values of all individual questions are listed.

Please send an e-mail to class.climate@kirkwood.edu with any questions you may have.

Comments Report

1. Course Feedback Survey

1.12) What should be kept in this course? Please explain why.

- Everything
- Everything Greg did was good for helping learn the content
- Having groups helped out a lot
- The teacher should be kept. Greg has a strong love for ethics and it makes me enjoy the class more than what i should have.

1.13) What changes would you make to improve the course? Please explain why.

- Break down some of the readings for the students some of them were confusing.
- I would improve the course by figuring out a way to make class time more hands-on instead of lecture. It just got a little boring listening to a lecture for two hours straight, and it was hard to focus and pay attention when you don't have much opportunity to participate during class, especially when it's a night class.
- None
- Quizzes were rough I think possibly having a group quiz would help out a lot. Also slow down when you talk. Sometimes you talked really fast and it was a challenge to keep up.
- This course should not be an accelerated class it was hard to follow and there was too much reading for being a full-time employee, having family, and taking other classes.

1.14) What other comments or suggestions do you have about this course or your instructor?

- Greg is a fantastic teacher! 10/10 would recommend
- It was an interesting class with lots of interesting discussions. Quizzes and rest were tough. Overall, I feel that I didn't learn anything
- None
- n/a
